

US-191 North Main

North Moab to Colorado River Bridge

Grand County

Overview

This project reconstructs the existing roadway to accommodate five lanes of traffic, two thru lanes in each direction with a two way left turn lane and 6-foot shoulders.

UDOT is partnering with Moab City to upgrade the storm water waste system.

Benefits

- Alleviates highway choke point and congestion.
- Provides better active transportation connectivity and function.
- Provides long-term storm water solution.
- Better accommodates increasing tourism development.

Facts

- Status: Construction Spring 2020
- Value: \$31.2 million
