Requesting a new data layer is a piece of cake:

Just click on the 'Request a Layer' button on the [Data Portal](#) and fill out an online request form.

The UDOT Data Portal is a one-stop shop for GIS data, applications, news, and training.

GIS at work: STIP Maps

The UDOT GIS team has created a gallery of maps for the annual Statewide Transportation Improvement Program Workshop. Find the maps on [UPlan](#), UDOT's online map center, by entering "STIP" in the search field and selecting "search for apps" on the drop-down menu. Read more about the [maps](#) on the UDOT Blog.

Meet Kaitlin Barklow

Kaitlin Barklow is a new GIS Analyst and Urban Planner in the UDOT Planning Department in the Program Development Division at UDOT. Kaitlin comes to UDOT after ten years of working in the private sector environmental industry. She earned her Bachelor's degree in Environmental Science from Willamette University and her Master's degree in GIS from the University of Utah. Welcome, Kaitlin!

UPlan clean-up

The GIS team is deleting duplicate and out-of-date items in UPlan. Soon, users will notice that finding relevant information will be accomplished more easily and the connection between UPlan and Open Data will be more seamless. Updating UPlan is an ongoing process, so check in often to see new features and improvements to the site.

User group meetings

User group meetings provide a forum for questions about ArcGIS and UPlan. Group facilitators generally demo UPlan functionality and answer as many question as time allows. Please contact your respective GIS representative about user group meetings and to learn more about future training opportunities, or email udotgis@utah.gov
