# UDOT Data Portal News

[data.udot.utah.gov](http://data.udot.utah.gov)

## Links:

[UDOT Data Portal](#)

[Training Videos](#)

[UDOT Projects Maps](#)

[UPlan](#)

## New Data Layer

[Permit Location Map](#)

Permit data is now refreshing nightly. Search for the map on UPlan, UDOT's map center.

## To request a new data layer:

Click on the 'Request a Layer' button on the [Data Portal](#)

The UDOT Data Portal is a one-stop shop for GIS data, applications, and training.

## New UDOT Projects Website Offers Improved Utility, Transparency

[UDOT Projects](#) has been integrated with Electronic Program Management (ePM) to provide current information on all projects from the study phase through completion.

Users can select data by area of interest, download data, turn map layers on and off, change the base map and view the map legend. Project summaries are available in a pop-up window on the map, along with a link to more detailed information.

## GIS Staff Changes

Congratulations and welcome to new UDOT employees!

Sarah Rigard is now officially a part of UDOT GIS after having taken a position as a GIS Program Manager in January. Her work will focus on UDOT's central divisions.

For the past six years, Sarah has worked as a GIS Analyst and Environmental Planner with BIO-WEST. The majority of Sarah's professional experience has been in transportation and she is a

familiar face around UDOT having worked the past two years on a staff augmentation contract for UDOT GIS. Sarah has a Bachelor of Science from the Pennsylvania State University and a Master of Landscape Architecture and Environmental Planning from the Utah State University. Sarah enjoys snowboarding, backpacking, and traveling with her family.

Adam Radel is a Certified GIS Professional, GISP. He is a GIS Program Manager, and he will help the regions with GIS projects.

Adam obtained a B.S. from the University of Idaho in 2008 and a graduate certificate in GIS from the University of Denver in 2014. He worked with the USGS at the National GAP Analysis Program as a GIS/Systems Integration Analyst from 2007 to 2011 in Moscow, Idaho. After that he worked for an engineering consulting company in northern Nevada as a GIS Consultant from 2011 to 2016.

Adam has a wide range of GIS and data management experience, including GIS server, mobile GIS, UAVs, web applications, and python scripting. He enjoys sharing GIS with everyone!

In his free time, Adam enjoys running, hiking, camping, mountain biking, and keeping up with his four kiddos, ages 3-10.

Alex Gilvarry is the new GIS Analyst at UDOT Region Two. He graduated from the University of Utah in 2012 with a Bachelors of Science in Geography. He lucked out and managed to find a job working as a GIS Analyst at Coldwell Banker Commercial here in Salt Lake City immediately upon graduating and worked there for nearly

4 years before starting at UDOT in February of 2016. He is interested in sustainability, in particular transportation and finding solutions to Utah's air quality problems. When he's not at work Alex likes reading, playing music, holding hands, long walks on the shoreline trail, and watching Real Salt Lake.
