The UDOT Data Portal is a one-stop shop for GIS data, applications, news and training.

GIS tools work: show me a sign

Did you know that UDOT is responsible for enforcing federal rules regarding some billboards? A new online map that shows geospatial locations of billboards along interstate routes is helping UDOT and UDOT customers save time and money. The UDOT Outdoor Advertising Control System map is available through [UPlan](#). Read more about the [program](#) and map development on the [UDOT Blog](#).

GIS at the UDOT Conference

Say hello to BIG DATA: The effort to inventory and geospatially locate all of the department's above-ground features has been completed, and that data is now in UPlan/UGate. Learn how to tame [big data](#) and put it to work for you at the Day of Data at the UDOT Conference on November 5.

Interactive sessions focus on:

- How to query, sort, and report on any section of road using data sets as diverse as traffic volumes, crashes, sign condition, and right of way.
- How the department has calibrated the Mobile LiDAR point cloud to create DTMs
- Information about sign and safety programs that are now under development

Other GIS sessions at the UDOT Conference:

- Understand how to optimize your workflow using UDOTs GIS Tools and enterprise data, learn best practices from the GIS staff and see practical examples from the Regions at session 53, the Final Frontier, GIS and Enterprise Data.
- Learn why a world-class asset management program requires business systems that are seamlessly integrated at session 54, Data integration-Industry Collaboration.
- Learn how to find and Use UPlan data as a tool to help your programs and projects at session 81, Using UPlan.
- Find out how to use GIS layers to assist in making critical decisions when planning and scoping for projects at session 87, Practical Uses of GIS and UPlan.

Feed the hungry? Can-do!

Canstruction is a national organization that challenges people in the design and construction industry to address hunger on a local level. The UDOT Team Canimation Nation, will be building a can structure at the UDOT Conference, then donating the food to the Utah Food Bank. Want to help feed hungry people in Utah? Contact Becky Hjelm at bhjelm@utah.gov. Together we can make a dent!
