NEW VIDEO:

Open Data

Open Data is a new website that has better search options and more format choices for filtering and downloading UDOT's public data.

GIS innovator Becky Hjelm

Becky Hjelm, GIS Manager at the Utah Department of Transportation, has been integral to some of the department's recent innovations through data-driven projects aimed to Keep Utah Moving.

For her efforts, AASHTO has honored Hjelm as the 2014 Transportation Vanguard Award winner. Read more about the award on the **UDOT Blog.**

GIS tools work: the three-year plan

A new UPlan gallery of web maps and apps, with information about upcoming projects, is now available through the **UPlan**, UDOT's online map center.

The gallery makes data on the UDOT Three Year Plan available to project managers, UDOT employees, policy makers and the general public. Projects are organized by program funding source, year and UDOT region.The gallery also has a web map of future planning through 2020. Read more about the gallery and UDOT's Three Year Plan on the **UDOT Blog**.

Meet GIS team member Kory Iman

Kory Iman splits his time between Mountainland Association of Governments as the GIS Administrator, and UDOT Region 3 as a GIS Analyst.

He graduated from the University of Utah with a Bachelors in Geography and a certificate in GIS. Kory has focused his GIS knowledge and skills to improve the quality of data in ePM, created the UPLAN Region 3 "Map of all maps" which is widely used by Region 3 senior staff members, and assisted in creating the Region Three Interactive Project Map.

Kory Iman

"GIS has the power to help us understand our world and to allow us to make better decisions that will make our communities a better place for everyone," says Kory.

Requesting a new data layer is a piece of cake!

Just click on the 'Request a Layer' button on the **Data Portal** site and fill out an online request form.

Send in your photos

If you've taken some great shots of bridges or other structures, projects showing people working, or just a beautiful roadway, please send us your photos. The images will be used on UPlan, UDOT's map center. Send photos to bhjelm@utah.gov

User group meetings

User group meetings are moving to each of the four UDOT regions to provide help that is focused on local needs. Meeting schedules will be in an upcoming newsletter.

Canstruction

Thanks to all who helped with the builing the Canstruction project at the UDOT Conference this year. The canned food was donated to the Utah Food Bank.
