

PROJECT INFORMATION

SR-35 Intersection Turn Lanes MP 62.01-62.01

Phase: 1
 County: Duchesne
 Region: 3.0
 Route Number: SR-35
 Beginning Milepost: 62.01
 Ending Milepost: 62.01
 Total Length: 0.0 miles
 Estimated Cost (2018 dollars)*: \$1,929,788
 Project Objective:
 SR-35/SR-87: Add NB left, SB left, acceleration lanes, shift graded dirt road to line up with SR-35.
 Project Need:
 Current intersection counts exceed turning thresholds.

PROJECT RISKS

Risks:
 Visible power lines along east side of SR 87

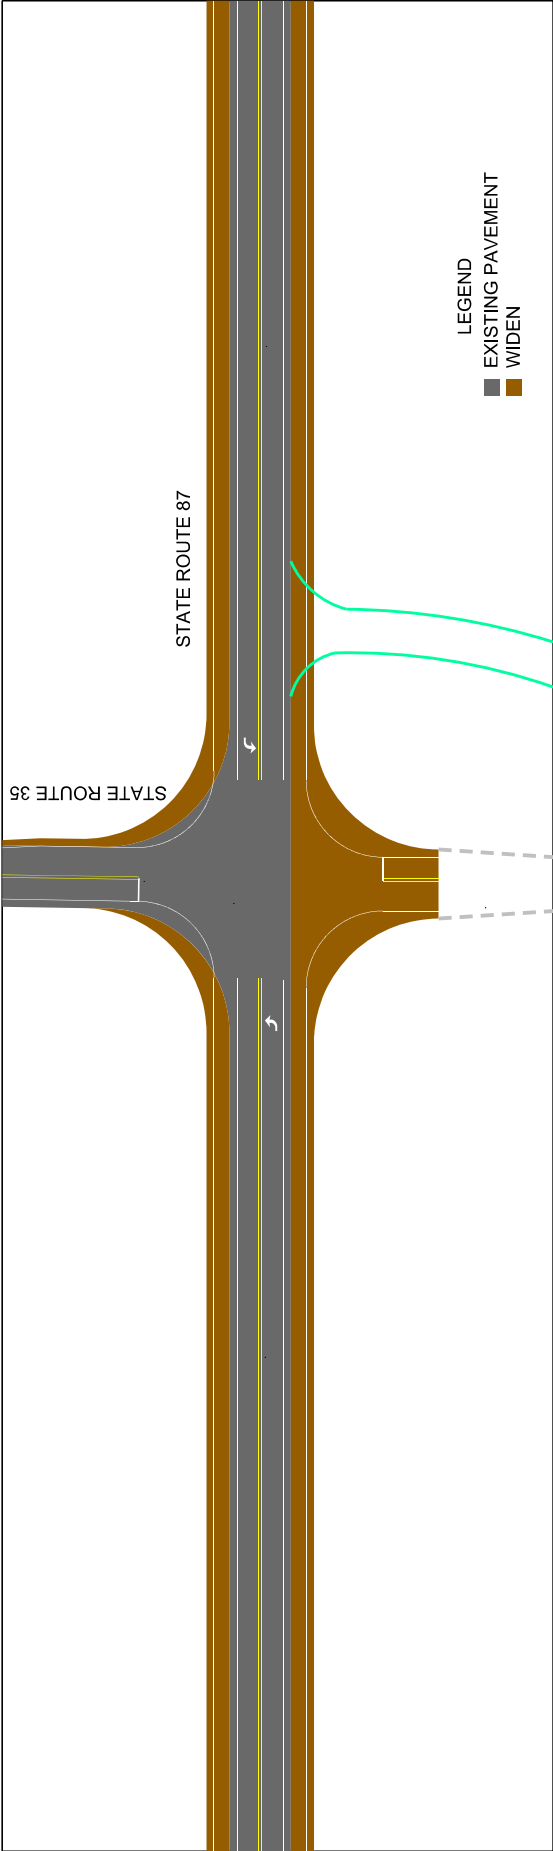

SAFETY AND CAPACITY

Proposed Lanes: N/A
 Functional Class: Rural Major Collector
 Crash Rate (3-year historic): 12.18
 Average Crash Rate: 1.98
 Severe Crash Rate: 243.5
 Average Severe Crash Rate: 11.5
 Truck Traffic: 33%

COMMENTS

Sawcut at the shoulder line and widen approximately 12 ft to the east and west for NB left turn lane and acceleration lane, SB left turn lane and acceleration lane, and 8 ft shoulders (all directions). Relocate unpaved road to the east to connect to intersection. Resurface existing pavement. Assumed no fill/cut for earthwork estimate.

ROW: Likely all private property, graded road is county road.
