

SR-108; 300 North to 1800 North

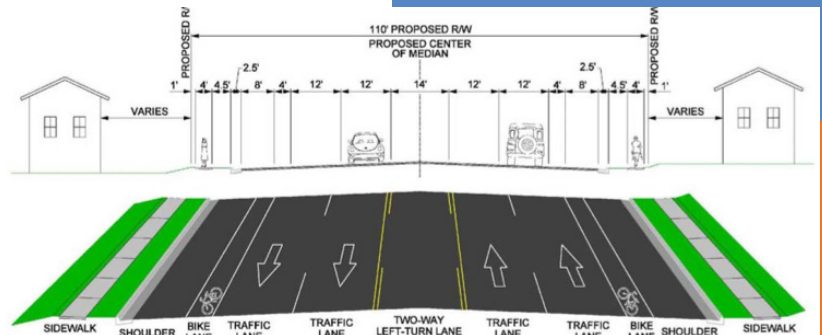

Project Overview

This project will continue the five-lane cross section for the SR-108 corridor as cleared in the Environmental Impact Statement (EIS). Corridor preservation has been occurring where possible to expedite the construction process. The segment to the south (SR-127 to 300 North) was completed in Spring 2019. SR-37 (1800 North) still needs funding to be widened to 5 lanes from SR-108 to the east. SR-108 is also planned to continue widening to 5 lanes up to SR-79 (Hinckley Drive).

Funding

STATE	\$60,000,000
TOTAL COST	\$60,000,000
